Organized in 1985, AAN serves professional advisors, faculty members, administrators and others in academic and student affairs concerned with the intellectual, personal and educational needs of students.

AAN provides a forum for discussion, professional development, and community building for academic advisors. Forum participants gain and share information about campus resources as they develop advising skills and strategies to become more effective contributors to the quality of undergraduate education.

**The Mission of AAN**

To promote access to high quality academic advising and service for students at the University of Minnesota.

To focus awareness on the important role of academic advising in implementing the University of Minnesota’s goal of excellence in undergraduate education.

To advance the professional development of the membership and the practice of advising.

**To Get Involved & Stay Connected**
